

*Yes, you can.®*

Invacare is the target of an online hiring scam. Over the past few years, there have been instances of fraudulent job offers. Please note that Invacare will not offer any positions of employment without at least one in-person interview and will never ask for credit card or bank account information before employment begins. These are two signs of a fraudulent job offer. If you feel you have been approached by these scammers, you may file a complaint at [IC3.gov](https://www.ic3.gov). By making you aware of this type of fraud, we hope to avoid unsuspecting individuals from falling for this scam.
